DETAILED ACTION

This is in response to a letter for patent filed on April 6th, 2001 in which claims 1-88 are presented for examination. Claims 1-88 are pending in the letter.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim(s) 1-49, drawn to secure licensing, classified in class 705, subclass 59.
 - II. Claim(s) 50-70, drawn to certificate revocation, classified in class 705, subclass 67.
 - III. Claim(s) 71-74, 82-88, drawn to license authentication, classified in class 713, subclass 158.
 - IV. Claim(s) 75-81, drawn to watermark for preventing tampering with media file, classified in class 713, subclass 176.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III and IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the inventive concepts are patentably distinct. The subcombination has separate

utility such as secure licensing, certificate revocation, authentication, and watermark for preventing tampering with media file.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I, II, III is not required for Group IV, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
